

Scum

Great authors have come and gone, leaving a legacy through their words and experiences. Gulassarian has made his mark with this work, presenting to us a world of aimless sex, joyless alcohol binges, and unanswered dreams in a city of decadence. He has lived it and he has described it best in *Scum* giving us a close look at life at a cross-roads. What would you choose: freedom and uncertainty, or love and commitment? An ordinary life is unsatisfactory for our hero, and the only thing that seems to bring any enjoyment is for him to lose himself in the liberties Amsterdam has to offer. There is, however, a woman that has been the reason behind his happiness, his pain, his joy, his misery. And though he engages in adventures to forget his past relationship, it seems to constantly creep back into his life.
