

Tim Buck (Volume 1)

Now that Tim Buck has been promoted out of the spy agency's cafeteria and left his hair net behind, he finds himself trying to prevent a disaster of Biblical proportions. A maniacal dentist from Idaho, Tim's mother, the clone of Tim's dead wife and a group of semi-deadly assassins are after the legendary stones that King David used to kill the giant, Goliath. Can Tim Buck overcome his distrust of women, his regrets about dropping out of the high school marching band, his clinical depression and a wealth of other assorted personal issues in time to save the world? If not, then the planet will be on the brink of catastrophe and Tim will be demoted back to the fryers.
